SUMMARY

As a co leader at GDSC - Future University in Egypt, I collaborate with a team of passionate students and mentors to empower and inspire the local developer community. I help organize events, workshops, and projects that showcase the latest technologies and opportunities in the field of computer science and information technology. I also leverage my skills in leadership, management, public relations, and web development to promote GDSC's mission and vision.

I am currently pursuing two bachelor's degrees in computer/information technology from Future University in Egypt and computer science from University of Cincinnati, expected to graduate in 2025. I have been interested in technology and innovation since I was a child, and I enjoy learning new skills and applying them to real-world problems. I have completed multiple certifications in web development and digital marketing from the Ministry of Communications and Information Technology (MCIT), Egypt, and I have also gained valuable experience as a head of PR at ECPC FUE Club, where I managed the club's online presence and communication strategy.

My goal is to become a successful and influential leader in the tech industry, and to use my knowledge and skills to create positive impact and value for society. I am always eager to learn from others, to share my insights and ideas, and to challenge myself and grow as a professional and as a person.

EXPERIENCE

Co leader
GDSC - Future University in Egypt   **October 2023 - Present, Cairo, Egypt · Hybrid**

Skills: Leadership · Team Leadership · Management · Project Management · Project Planning · Teamwork · Team Building · Computer Science · Entrepreneurship · Creative Entrepreneurship · Strategic Planning · Communication .

Head of PR
ECPC FUE Club   **May 2023 - October 2023, Cairo, Egypt · On-site**

EDUCATION

Bachelor's degree, Computer/Information Technology
Future University in Egypt · 2025 · 3.78

Bachelor's degree, Computer Science
University of Cincinnati · 2025 · 3.78

CERTIFICATIONS

Introduction to Deep Learning & Neural Networks with Keras
IBM · 2023

Innovegypt program
TIEC · 2023

Machine Learning with Python
IBM · 2023

Data Analysis with Python
IBM · 2023

Advanced MySQL Topics
Meta · 2023

Database Structures and Management with MySQL
Meta · 2023

Introduction to Databases
Meta · 2023

Python Data Structures
University of Michigan · 2022

Foundations: Data, Data, Everywhere
Google · 2022

Programming for Everybody (Getting Started with Python)
University of Michigan · 2022
